

Thank you to United Food and Commercial Workers Local 328 for their support of healthy Moms and strong Babies. In the last 26 years, Local 328 has raised more than a million dollars in support of families, has touched countless lives, and continues to be one of the top performing fundraising locals within UFCW. All of us at March of Dimes are truly honored to be the recipient of the 2023 tournament and thank each of you for your support of this incredible event.

March of Dimes is celebrating their 85th anniversary this year. As we look back on our history one thing is clear, **organized labor has been with us since the beginning.** From President Roosevelt's original dime drive to today-labor has supported our efforts which has benefited thousands of families across the globe.

For 85 years, March of Dimes has helped millions of families be healthy and strong in communities like yours and across the country. Our journey began as the National Foundation for Infantile Paralysis where we led research that eradicated polio. Over the decades we evolved to provide essential information and research critical for moms and babies as March of Dimes. We build on that legacy each year to level the playing field for every parent, baby, and family, no matter their wealth, race, gender, or geography.

This year, we celebrate our lasting impact and continue to lead the fight for the health of all moms and babies. Through our milestones we're not only celebrating, but also remembering our impact from the past

85 years. With the generous support of our partners, **like UFCW Local 328**, and our donors, we fight for every mom and every family. It's what we do. It's what we've always done. **But we're far from finished.** The US remains among the most dangerous developing nations for childbirth, especially for families of color. More than 7 million women of childbearing age live in countries with no or limited access to **maternity care.** 2 women die from pregnancy related causes every day. **1 baby dies every hour** in the US. 1 in 10 babies is born preterm in the US every year. Preterm birth and complications are the largest contributors to infant death in the US and globally. Woman of color are up to **50 percent** more likely to give birth preterm and their children can face a **130 percent higher infant death rate.**

We're committed to mobilizing the nation by amplifying the voices of women and families, and we have a renewed commitment to helping moms and babies with the tools, technology, and care they need.

Together we can and we will help change the outcome for families across the country.

Thank you on behalf of everyone at March of Dimes and most importantly the families we serve for your support.

Good Luck and enjoy the tournament.
